- ⑫ Payment Terms: T/T, L/C and so on.
- ⑬ Shipment Way: Vessel, Air, Express etc.

Product Feature AND Application of the **Racecourse Anti Slip Rubber Interlocking**

Pavers:

Rubber interlocking pavers for horse are made of high quality rubber material, it is very durable and weather-resistant and can be used outdoors for a long time. They can be used in temperatures from below 60 degrees Celsius to -60 degrees Celsius: take measurements in advance and leave a residual. Excess parts can be trimmed with a wallpaper knife or other tool to trim the edges. Do not use gasoline, engine oil, thinner and other petroleum solvents. When cleaning, adhesives containing volatile solvents are not required when installed. Before installation, ensure that the ground is firm and flat. Loose ground may be uneven. The mat's surface is made of black rubber granules and dyed pigments.

Key Benefits:

Safety First: provide super anti-slip in wet and dry conditions.

Healthy: horses thrive in a dust free and safe environment.

Stress Free: horses remain calm on thick, cushiony surface.

Comfortable: the ultimate shock absorbent surface.

Looks great: the terracotta cobblestone enhances any area.

Sounds great: extremely quiet under foot, impact sound.
